The Book of PostgreSQL ([No Starch Press](#))

In Progress

pgRouting now an Official Project of OSGeo

Fund OSGeo projects: <https://www.osgeo.org/about/how-to-become-a-sponsor/>

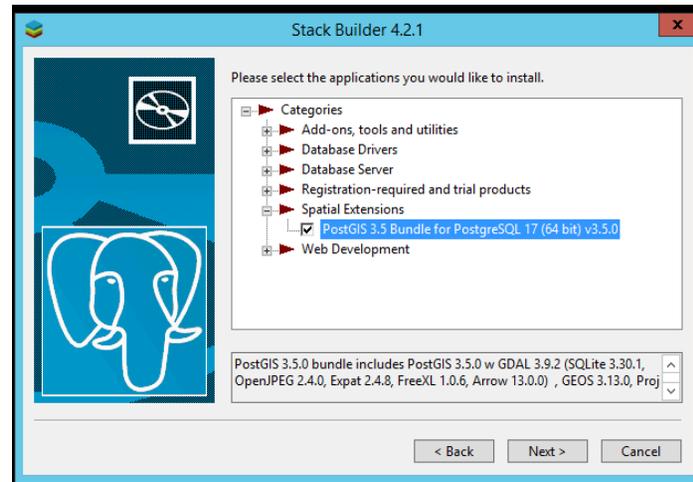

If you want to donate to the pgRouting Project

Fund options here: <https://pgrouting.org/support.html>

- Open Collective: <https://opencollective.com/pgrouting>
- Community Bridge:
<https://crowdfunding.lfx.linuxfoundation.org/projects/pgrouting>

A big **THANK YOU** to OSGeo.UK for their continual funding of pgRouting.

PostGIS Windows Bundle: 3.5.0 - PG 13-17

- postgis (for loading shp2pgsql, pgsq2shp, shp2pgsql-gui)
- postgis_raster (raster2pgsql for loading)
- postgis_sfcgal
- postgis_topology
- postgis_tiger_geocoder
- address_standardizer, address_standardizer_data_us
- ogr_fdw
- pgrouting (osm2pgrouting for loading osm data)
- pointcloud, pointcloud_postgis
- h3, h3_postgis
- mobilitydb 1.2

Other sources of PostGIS extensions

Can't enable in database with `CREATE EXTENSION` unless have binaries

- **Available from packagers:** (apt.postgresql.org, yum.postgresql.org, ubuntuGIS, Windows Stackbuilder, BSD ports, Homebrew) PostGIS packaged extensions, pointcloud/pointcloud_postgis, pgRouting, ogr_fdw, oracle_fdw

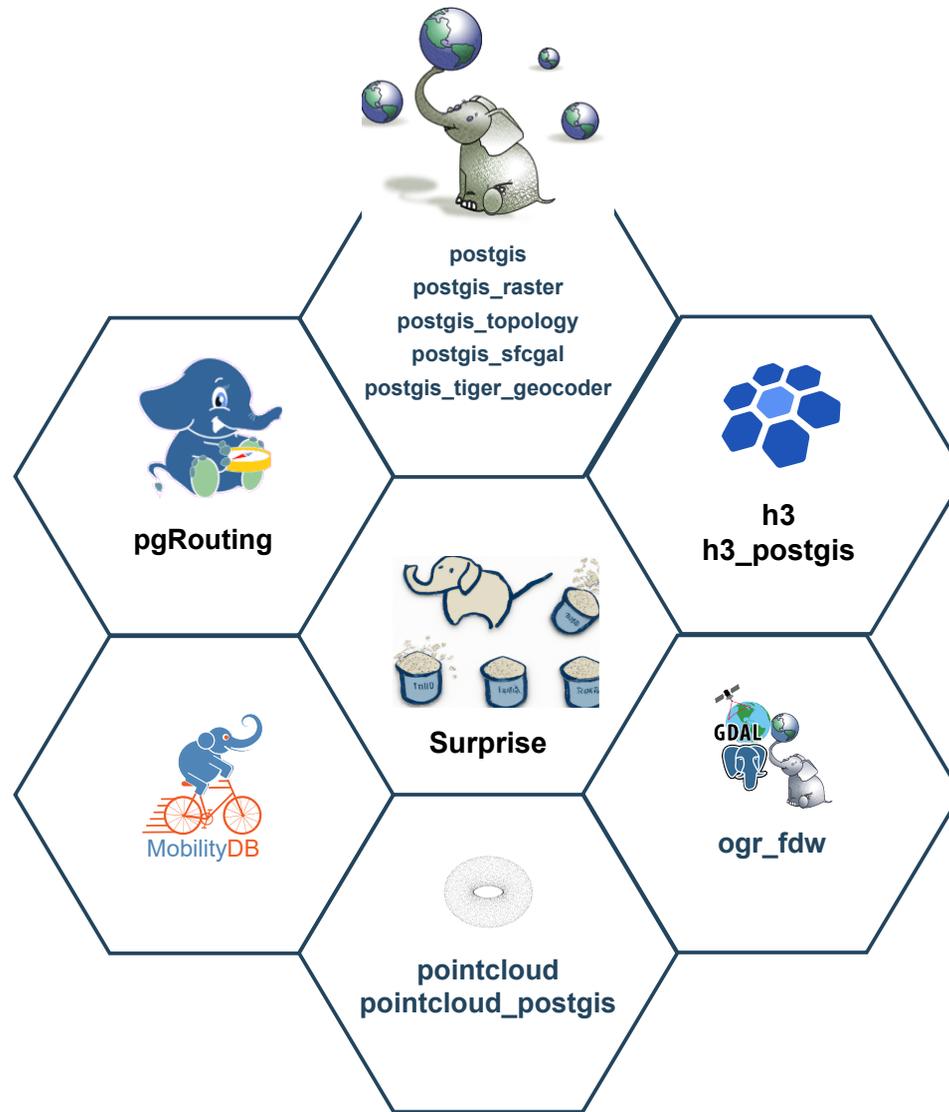

h3 for newer OS also available on apt.postgresql.org and yum.postgresql.org

mobilitydb for newer now available on apt.postgresql.org

- **Support via Database As a Service (DBaaS):** PostGIS extensions (except sometimes not postgis_sfcgal), pgRouting, oracle_fdw (sometimes), ogr_fdw (sometimes)
